

# Managed Internet

*See It. Shape It. Secure It.*

Professional management of your business internet and local network, powered by Ubiquiti's UniFi platform and delivered by Crystal IT. Your internet connection is the backbone of your business – it deserves to be managed properly.

Hardware (UniFi gateway or router) sold separately. Crystal IT will recommend the right gateway for your environment.

## Why Managed Internet?

<p><b>Layer 7 Visibility</b></p> <p>See exactly which apps and devices consume your bandwidth.</p>	<p><b>QoS &amp; Prioritisation</b></p> <p>Business-critical apps get priority. Background noise gets throttled.</p>	<p><b>Multi-WAN Failover</b></p> <p>Up to 8 WANs with automatic failover. Your business stays online.</p>
<p><b>Enterprise Security</b></p> <p>IDS/IPS, content filtering, and region blocking – all managed for you.</p>	<p><b>Cloud-Managed</b></p> <p>No site visits needed for routine changes. Crystal IT manages it all remotely.</p>	<p><b>On-Demand Reporting</b></p> <p>Traffic and performance reports available whenever you need them.</p>

## How It Works

- 1

**Deploy UniFi Gateway**

We install a UniFi gateway at your premises, sized to your needs.
- 2

**Connect to Crystal IT Portal**

Your gateway is adopted into our centralised cloud management platform.
- 3

**We Manage, You Relax**

Crystal IT monitors, configures, and secures your network on an ongoing basis.

## Ready to take control of your network?
